

PrimeOxide®

ODOR ELIMINATOR

Don't Cover Bad Odors,
Get Rid Of Them!

Ready to use with no mixing required,
just spray, wipe and fog right from bottle.

Prime Oxide eliminates a wide range of bad odors, from left over food odors in the kitchen to cigarette smoke odors in the car. Prime Oxide gets rid of bad odors attacking the odor causing bacteria without damaging the surfaces or articles treated.

APPLICATION METHODS

- Prime Oxide must come in contact with the source of the malodorous to eliminate it. Remove excess soil from area causing the malodorous, then saturate the area with Prime Oxide and allow ventilation to air dry.
- Prime Oxide can be used in areas where there is bad odor present, just use the fogger to apply Prime Oxide directly to the area causing the malodorous after removing visible filth or dirt.
- Spray on porous surfaces like concrete or wood. Dirt often hides in the ridges or dimples of a porous surface. Remove as much dirt as possible apply Prime Oxide and allow to air dry.
- Direct injection into carpet padding cushions and bed padding.
- Can be used with carpet extraction machines and steam cleaning machines.
