

# PrimeOxide®

## DEALING WITH PET ISSUES?

Prime Oxide is an EPA registered product for disinfection and sanitation of surfaces and materials including natural stone and carpet. After rigorous testing, Prime Oxide received the Seal of Approval from the Carpet and Rug Institute for pet stain and odor. In addition to being highly effective on urine and pet odors, Prime Oxide is an allergen reducer. It denatures proteins in pet dander that can cause allergies creating an environment in the home that is safe for pets and their owners.

### AREAS OF USE

- Carpet and Rugs
- Animal / Pet Housing Facilities
- Breeding Establishments

### BENEFITS

- EPA Registered Carpet Sanitizer
- Kills Bacteria and Viruses
- Odor Eliminator
- Reduces Pet Dander Allergies
- Safe for Fabrics

- Animal Transportation Vehicles
- Pet Shops
- Veterinary Offices

- Farms
- Kennels
- Zoos

### SAFETY

See material safety data sheet and product label for safety information, handling and proper use.

### EPA Registered

EPA Reg. No. 82972-1-97761  
EPA Est. No. 97761-PR-1

### PRIME OXIDE KILLS:

- MRSA
- Pseudomonas Aeruginosa
- Escherichia Coli
- Salmonella Enterica
- Staphylococcus Aureus
- Legionella Pneumophila
- Aspergillus Niger
- Murine Norovirus
- (HIV-1)
- Enterobacter aerogenes
- Listeria Monocytogenes
- Acinetobacter Baumannii
- Rotavirus
- Respiratory Syncytial Virus
- Influenza A (H1N1)
- Influenza B Virus
- Hepatitis A
- Hepatitis B
- Hepatitis C
- Klebsiellapneumoniae (NDM-1)
- Swine Influenza
- Canine Parvo Virus
- Canine Adeno Virus
- Bordetella
- Canine Influenza
- Feline Panleukopenia Virus
- Feline Infectious Peritonitis Virus
- Rabies Virus
- Avian Influenza
- Herpes Simplex Virus
- Porcine Epidemic Diarrhea Virus
